

EQUIPMENT MANAGER - 2013

It has been my pleasure to take on the role of Equipment Manager for the Peterborough City Soccer Association for the 2013 soccer season.

The equipment process this year was completed with few issues. Players, Coaches and Managers received their necessary equipment for the season.

All the fittings were done through Soccer Plus International in an organized fashion in November and the PCSA received all the equipment by March and was distributed accordingly. I worked closely with the staff at *Soccer Plus International* and feel that they have been very professional, helpful and a pleasure to work with.

Over the years the PCSA has accumulated extra equipment. We managed to houseclean all this unused equipment through a charity club yard sale which raised over \$600. ALL monies raised will go towards purchasing teddy bears to be distributed at PRHC. The remaining equipment that was not sold has been donated. Half of went to Honduras this past October and the other half will be taken to Mexico this coming March.

For the 2014 season, the PCSA executive decided the club was ready for an equipment change. We looked at many uniform options and unanimously voted on trialing Umbro. They have the clothing quality that the club is looking for, delivery is available in a timely fashion, and our club colours are readily available which makes for a larger selection. L&M Taylor Soccer in Whitby will be our distributor through this process.

I have enjoyed filling the position of Equipment Manager and appreciate the patience of all Coaches, Managers, parents and players through the season.

Thank you,
Shari Hazeldine
