

Registrars Report

Dec 7, 2019

Thank you to everyone for their patience this past year with the new integration of the Sports Engine registration system (OSCAR).

Although there were a few bumps at the beginning I feel registration was executed well and very few issues arose during the season. With many updates over the past year, the system is ready for registrations for the 2020 season and I am aiming to have teams registered, rosters and books handed out by the next installment date in February.

We had 542 players registered for the outdoor season to our 28 teams.

For 2020 we have currently 363 players committed to our 26 teams to date. We still have our U6/7, U8 boys and girls programs, as well as our Senior teams to be added into the first part of the new year. We anticipate having a minimum of 483 players register to our 26 teams.

The indoor season is underway and this fall for 2019/2020 we had a large increase in registrations to our Academy program. 117 players have registered for academy sessions.

I hope to continue with the club and would look forward to working with the new teams, team officials and the new board should I be elected.

Thank you for your support.
